

bica[®]

basic

Designed for smaller areas with limited waste.
Spaced-optimized design in high quality.

Bica Model 887

The space-optimizing and elegant waste solution for smaller areas

Our product line Bica Basic is suitable for offices and other areas with smaller amount of waste. The perfect solution for managing waste even when space is limited without compromising on the design and functionality.

Bica Basic consist of a range of EU Ecolabel-certified products for separate waste into 2, 3 or 4 fractions. The capacity of the bins are designed specifically for smaller areas with fewer users. The waste solutions have a number of advantages as front door with soft close and integrated bag holders. It is possible to install shelves and use inner bins.

All products in Bica Basic are made of solid powder coated steel that requires minimal maintenance. The clean lines of the design give a minimalist and timeless expression. The waste bins are available with lid for organic waste, which minimize odor.

To sum it up: You will get a great-looking solution in a space-optimized design in high quality.
